

## THROCKMORTON WALK 3

### Sambourne Circular

Distance 2.9 Miles (4.7km)

This is a lovely short circular walk that takes you from Coughton to Samborne and back. It is flat and will go through beautiful countryside. You will begin at the Throckmorton and can stop here for a bite or pint after your walk.

#### 1 – To Sambourne Lane

With the main road behind you, walk through the field at the rear of The Throckmorton, over the bridge across the brook and into the opposite field. Follow the footpath in front of you through this path through the gates until you reach Sambourne Lane.

#### 2 – To Sambourne Green

Turn right onto Sambourne Lane and follow the quiet road which becomes Wike Lane through the woodland and countryside. When you reach Sambourne village you will see the village green and The Green Dragon pub in front of you. This is the halfway point so you may wish to stop for a refreshment or carry straight on!

#### 3 – Footpath to Coughton

To locate the footpath that returns to Coughton, looking out from The Green Dragon you will see a wooden hut bus stop and a large house, in between these you will see a waymarker for the footpath. Follow this path through the gate and into the wooded area and keep going straight when the path forks until you reach a lane to cross. From here just keep following the footpath waymarkers all the way until you see The Throckmorton on your left and reach the small bridge that you crossed to get across the brook. Cross back in to the field at the rear of The Throckmorton to complete the walk!
